

DOCTOR IN SPECIAL CARE DENTISTRY - DS977
DURATION OF STUDY: 4 YEARS / 8 SEMESTERS
(INTAKE : OCTOBER)

Synopsis

The course provides comprehensive knowledge and training in Special Care Dentistry based on the professional and ethical standards. The candidates will be exposed to different and current Special Care Dentistry theories and treatment modalities and will be exposed to in-depth knowledge of Special Care Dentistry diagnosis and treatment concepts. Candidates will have lectures, seminars, and practical sessions from Semester 1, onwards.

Clinical Special Care Dentistry training includes treatment of patients in faculty clinics and external premises under the supervision of Special Care Dentistry specialists and consultants, as well as specialists in other relevant fields. Candidates are also required to perform supervision sessions in the undergraduate clinic about once a week.

Candidates are also to complete a dissertation, which is worthy of publication or a publishable manuscript. In addition, candidates undertake two assignment projects which are 1) clinical audit and 2) innovation.
